

Smart Snacks by Unite Microsystems Pvt. Ltd.

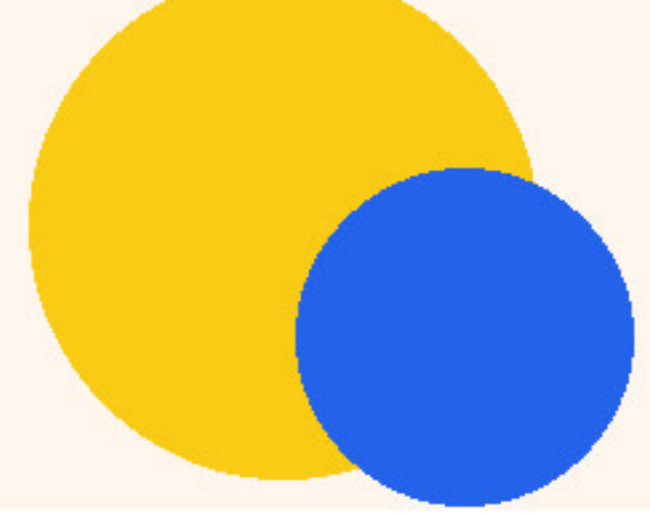

Smart Snacks Multi-Product Vending Machine Solution

Smart vending solutions for snacks, beverages, OTC healthcare products, books, stationery and utility products.

Smart Snacks by Unite Microsystems Pvt. Ltd.

- Built for offices, schools, colleges, hostels, hospitals, factories and public places.
- Serviceable planning for Delhi, Patna, Noida, Bihar, MCR and other locations as per project scope.

Product Categories Supported

Configure the vending machine based on location demand and permitted product type.

Snacks

- Chips, biscuits, nankeen, chocolates, cookies, energy bars and ready-to-eat packaged products.

Beverages

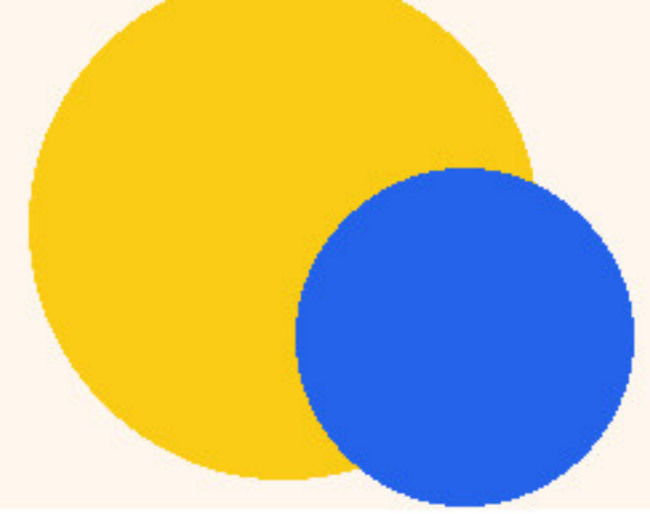

- Water bottles, juice packs, cold coffee, energy drinks, health drinks and packaged beverages.

Medicine / OTC Healthcare

- Permitted OTC, wellness, first-aid and hygiene essentials based on legal and site suitability.

Books & Stationery

- Books, guides, notebooks, pens, pencils, exam essentials and study material.

Machine Variant Overview

Choose the vending machine family based on product mix, footfall and payment preference.

Snacks & Packaged Food Vending

- Best for offices, colleges, hostels and factories.

Beverage Vending

- Best for gyms, hospitals, offices and high-footfall public spaces.

Combo Snacks + Beverages

- Best for locations that need mixed product convenience in one unit.

Medicine / OTC Healthcare Vending

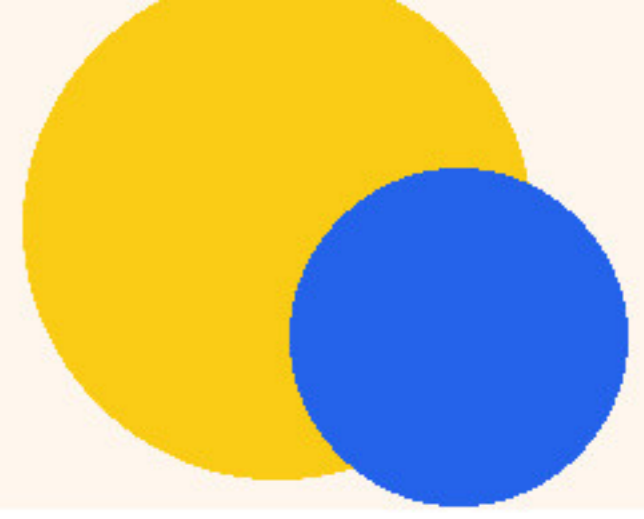

- Best for hospitals, hostels, offices and industrial units.

Books & Stationery Vending

- Best for schools, colleges, libraries, coaching centers and exam locations.

Custom Multi-Product Vending

- Best for unique retail, institution or public convenience requirements.

Feature Comparison Guidance

Use these points before requesting a demo or quotation.

Payment Modes

- QR / UPI, coin, cash or mixed payment can be discussed based on selected configuration.

Product Layout

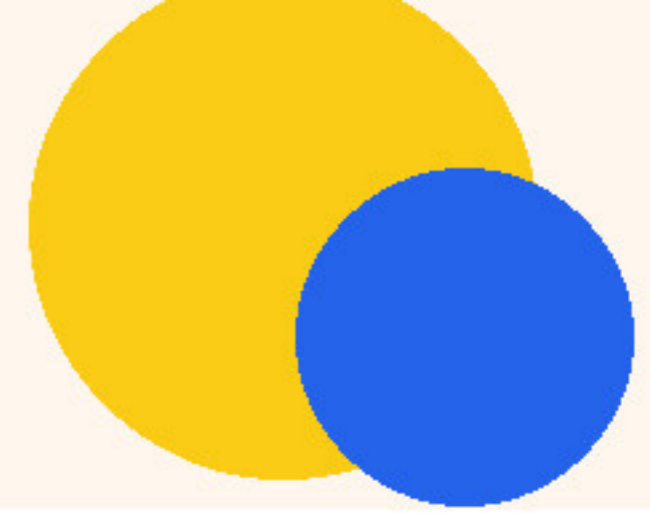

- Shelves can be planned around packet size, bottle size, book/stationery dimensions and refill workflow.

Cooling

- Cooling is optional and depends on beverage or product requirement.

Inventory & Refill

- Stock tracking, refill planning and dashboard monitoring can be included as per project scope.

Which Vending Model Should You Choose?

A simple selection guide for Indian institutions and businesses.

Offices

- Choose snacks + beverages or employee convenience product mix.

Schools & Colleges

- Choose stationery, books, snacks and approved packaged items.

Hospitals & Hostels

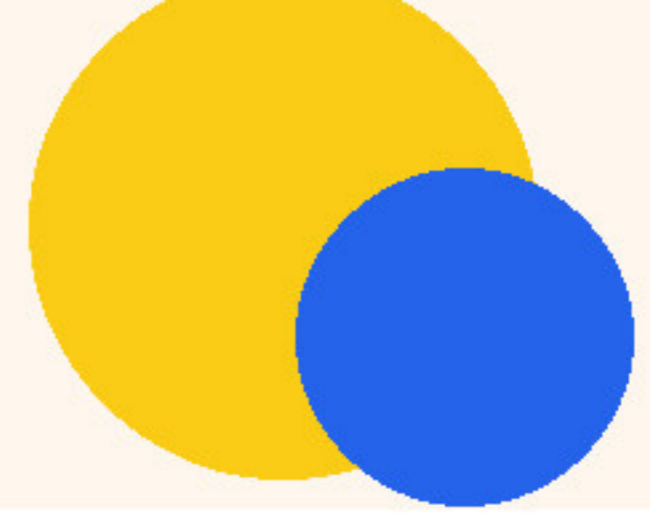

- Choose beverages, wellness, hygiene and permitted OTC essentials.

Factories

- Choose snacks, drinks, first-aid essentials and employee convenience products.

Public Places

- Choose high-footfall mix such as water, snacks, utility products and books.

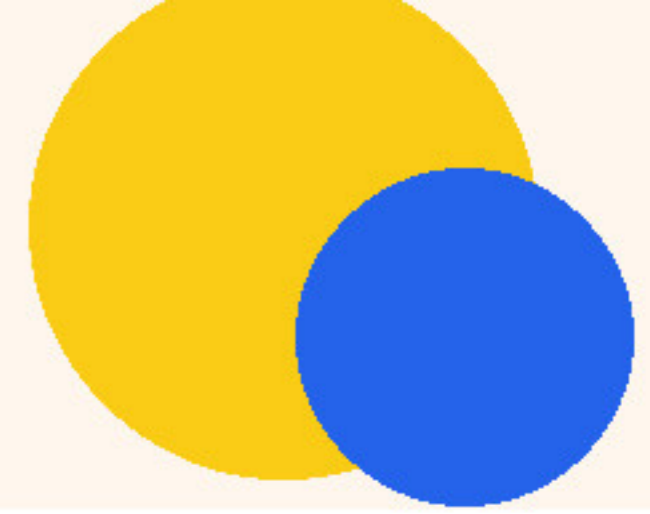

Installation & Support Process

From requirement discussion to launch and refill planning.

Process

- 1. Requirement discussion
- 2. Product category and machine recommendation
- 3. Demo or quotation
- 4. Site and installation planning
- 5. Payment and product setup
- 6. Training and launch
- 7. Refill, support and monitoring as per plan
